To Whom It May Concern,

I'm a concerned Resident in the area that Tippet Rise is constructing what they call a "MUSIC BARN"  
Location is 10 South Grove Creek Road Fishtail MT, 59028, 406328-4321

1 - They have disrupted local habitat for over a year with heavy machinery and illicit water draw off the Grove Creek.

2 - We believe there will be new road construction in the near future. The Grove and Davidson Creek's banks could be altered from their current condition. Our understanding is that Tippet Rise plan to widen the road over the creek extending into brush that is occupied by local habitat.

3 - We also believe that temporary and potentially permanent structures are in locations in violation of proximity rules to the Grove Creek.

4 - There have been heavy diesel odors emanating from the construction site.

5 – There have been frequent power disruptions to local residents for the past month.

We truly believe that a thorough inspection is required. My Wife has filed documents with Stillwater County and the reply was open ended and what I deem inappropriate. I am a product of Aboriginal Descent. We enjoy the peace and harmony that surrounds us - PLEASE HELP ME PROTECT MY SACRED HUNTING GROUNDS - PLEASE NO MORE WOUNDED KNEES!

Please pass this message to all who wish to see our LANDS, WATERWAYS AND HABITAT PROTECTED!  
Tippet Rise may paint a pretty portrait – but from my Deck there seems to be little concern for the habitat and local community!

Thank You!

Please make the state put out the fires in the everglades now. I cant go outside or exercise, or walk my dog and I am a healthy person age (b) (6) so I can imagine what the population is experiencing. I live in Fort Myers, FL. I am an R.N. and feel that our health has been compromised long enough. This has been going on long enough! Their solution is to drown the fire - please make this happen NOW.

Thank you for being there for us! Bless you.

**Subject:** Black Mold in building  
**Date:** Tuesday, July 21, 2015 9:30:08 AM

---

Good morning,

I have a complaint about a place I worked. The old building has leakage problems and a muggy smell. I was consistently sick when I worked there. The company would shut the a/c systems off at night and on weekends, the building had many leakage issues.

I questioned the smell. and asked why the guy fixing leak is not cleaning the area. He only spoke Spanish so It was hard for me to question him. I would come in on Monday and the office would smell like old water no sooner that I would turn the A/C on that I would start (b) (6) and

(b) (6) again. I had a lot of (b) (6) Privacy(b) (6) Privacy problems and (b) (6) Privacy symptoms. I have been to the Dr. 5 times and am now on (b) (6) Privacy and taking antibiotics, and other medications to help with my symptoms.

I left my job July 13th and since I have left I have felt better. I am truly convinced that there is an issue with mold in the building. I am concerned for the others that are still working there. not sure if this is where I need to file a complaint or concern.

The Company is Ledcor and there address is 9330 Corporate Dr Suite 407, Selma tx 78154  
They are renting the facility this is a small business complex, very old building not well kept.

Thank you for your time.
